PRESENTATIONS	Future of Work in Brazil in the Fourth Industrial Revolution . <i>ScientifEduc</i> , July 2023 ChatGPT: How AI Is Shaping Education and Work Interview, <i>Podtech</i> , <i>Futura Media Channel</i> , May 2023	

WORK EXPERIENCE	IA em 1 minuto / Brazil Co-founder and Head of Content. In less than a year, we have taught more than 10,000 professionals via virtual courses to use artificial intelligence tools to be more productive at work. We work towards a vision of AI enhancing the Brazilian people's capabilities, positively impacting the country's productivity and improving economic and social indicators. Our website is (https://iaem1minuto.com/).	2023 -
	Federal University of Rio de Janeiro / Brazil Teaching Assistant for the subjects "Artificial Intelligence, Algorithms: research seminars" and "Between Algorithmic Acceleration and Catastrophes".	2021-2022
	Federal University of Rio de Janeiro / Brazil Teaching Assistant for the subjects "Culture, Nature, and Information: From Cognitive Capitalism to Algorithmic Acceleration" and "Knowledge, Information, and New Technologies: Values, Vectors, Wars".	2020-2021
	Junta de Missões Nacionais / Brazil Social Communications Adviser. My duties included developing and executing communication strategies to promote the NGO's social projects. I managed relationships with media, crafted content for diverse platforms, and handled public relations, ensuring effective information dissemination. I also evaluated and adjusted communication strategies, optimising outreach and engagement with stakeholders, benefactors, and the assisted communities.	2016 - 2017
HARD SKILLS	Software development I have developed full-stack web and mobile applications. I am experienced with Python, Dart, Java, JavaScript, CSS, HTML, and associated packages and frameworks such as Django and Flutter. Relevant applications deployed include the app Sabiá, a mobile app that aims to tackle the loneliness of older adults by enabling the exchange of audio stories between family and friends. A demonstration of this app can be found at (https://www.youtube.com/watch?v=_As_m1PQnBs&t=14s). The complete code is available at (https://github.com/anacastro94/sabia.git).	
	Storytelling, video making, and editing I have successfully produced, recorded, and edited several long-form and short-form educational videos about AI, technology, work, and productivity. In the last eight months, my videos have been watched more than 40,000 times. The videos are available at (https://www.youtube.com/@iaem1minuto).	
VOLUNTEERING	From January 2016 to December 2018, I volunteered on the project Cristolândia (https://cristolandia.org.br/), aimed at the social reintegration of street-living drug users.
